

Article 6: Use Tables

Division 6.1 General

Section 6.1.1 Organization

- A. **Purpose.** This Article establishes the primary and accessory uses permitted in each zoning district. The use tables in Sections 6.2 – 6.5 identify, for every district, whether a use is permitted by right, permitted by special use permit, permitted as an accessory use, or not permitted.
- B. **How to read the tables.** The use tables use the following symbols:
 - 1. "P" means the use is permitted by right, subject to all applicable use standards and other regulations of this Ordinance;
 - 2. "SP" means the use is permitted only with an approved special use permit, subject to all applicable use standards and other regulations of this Ordinance;
 - 3. "AC" means the use is permitted only as an accessory use to a permitted primary use; and
 - 4. A blank cell means the use is not permitted in that district.
- C. **Footnotes.** Use table footnotes apply additional regulations to the uses notated in the districts in which the footnotes appear. Unless otherwise noted, these additional regulations may not be waived or modified by the Agent or the Board of Supervisors.
- D. **Applicability of standards.** A use permitted in a district under this Article may only be established in compliance with all applicable use standards, district regulations, and other applicable regulations of this Ordinance. If a use requires a license, permit, or other approval from the Commonwealth or the federal government, the use may not begin without that approval.
- E. **Conflicts.** If a provision of this Article conflicts with any other provision of this Ordinance, or with any Commonwealth or federal statute or regulation, the more restrictive provision governs, in accordance with Virginia Code § 15.2-2315.

Section 6.1.2 Uses Not Provided

- A. **Inclusive.** The primary uses permitted in any zoning district are only those uses identified in the use tables as permitted by right or by special use permit, or the uses identified in a code of development. Uses not shown are not permitted.

B. **Determination of substantially similar uses.** The Zoning Administrator may determine that a use not listed in the use tables or a code of development is permitted in a district if the Zoning Administrator finds that the use is substantially similar to a use permitted in that district. In making this determination, the Zoning Administrator will consider the following:

1. Locational requirements;
2. Operational characteristics;
3. Visual impact; and
4. Traffic generation.

†

Rural Areas (RA) uses (C-1 Sec. 22.2.1; CO Sec. 23.2.1(19)). Uses permitted by right in the Rural Areas (RA) district are permitted by right in this district only where the use is not served by public water or an approved central water supply. This is a rare occurrence and the RA uses are not listed individually in this chart.

††

DCD residential uses (Sec. 20B.2). Permitted by right under Sec. 20B.2(D) where the first floor of the building is designed for and occupied only by a use permitted under Sec. 20B.2(A), (B), (C) or (E); permitted by special use permit under Sec. 20B.2(F) without the first-floor condition, provided no use permitted under Sec. 20B.2(A), (B) or (E) is on the same lot.

‡

Permitted by right where the gross floor area does not exceed 4,000 square feet per site. Gross floor area may exceed 4,000 sf per site by legislative modification approved by the Board of Supervisors.

Use	C-1	CO	HC	PD-SC	PD-MC	DCD
*	One dwelling unit or sleeping quarter per commercial or industrial use is permitted as accessory to the commercial or industrial use, per Sec. XX (Use Performance Standards)					
**	Water service conditions. Restaurants, convenience stores, and automobile service stations are permitted by right where served by public water or an approved central water supply; where not so served, they require a special use permit. Separately, a use otherwise permitted by right requires a special use permit if not served by public water and consuming over 400 gallons per site acre per day, and/or not served by public sewer and discharging sewage other than domestic wastes.

^	Uses may only be located in structures existing or vested on April 3, 2013.			
**	One dwelling unit or sleeping quarter per commercial or industrial use is permitted as accessory to the commercial or industrial use, per Sec. XX (Use Performance Standards)			

Section 6.5.1 Uses not served by public water or sewer.

All uses permitted by-right in industrial districts must either:

1. Be served by public water and sewer and discharge only domestic wastes;
or
2. Consume less than 400 gallons of water per site acre per day.

Any otherwise by-right use not meeting these conditions may only be permitted by special use permit.

Division 6.6 Neighborhood Model District Uses

Section 6.6.1 Uses Permitted by the Code of Development

The uses permitted in a Neighborhood Model District are the uses identified in the code of development approved by the Board of Supervisors for that district. A use is permitted by right or by special use permit as the code of development specifies.
