5th and Avon Community Advisory Committee

Board Details

The Advisory Committees will provide assistance, feedback and input to County staff and the Board of Supervisors on community and county efforts related to implementation and support of the adopted Master Plan, in accordance with established county procedures. Advisory Committee members will communicate with their constituencies to increase understanding of and support for successful implementation of the Master Plan. The Committees will be a catalyst for helping foster a sense of community and work towards effective and efficient Master Plan implementation. Committees are a venue to discuss and provide comments on program and policy questions and/or proposals. Community Advisory Committees are an important venue for discussion and Committees can provide feedback and indicate preferences related to development proposals, although Committees do not have a legislative role in the development process.

Memberships in Civic, Not-for-Profit, and Similar Organizations:

Variety of educational and social service organizations (see resume).

Interests:

My current interests lie in two areas. First, I am interested in improving the educational/economic opportunities for members in our community who remain underrepresented in post-secondary institutions and continue to struggle to move up the socio-economic ladder. Second, I am committed to access and success for first-generation college students. Underlying these interests are my values in equity and equal opportunity.

Reasons for Seeking to Serve on the Board, Commission, or Committee:

I want to continue to invest in the well being of my community in ways that utilize my experience and skills. I believe my broad background in education will serve me well in working on the Social Services Advisory Board for the Jouett magistrate, where many of my current adult students reside and their children attend school. TJACE has helped me deepen my understanding of the needs and challenges of the immigrant/refugee community in Albemarle County, and my board service would be an additional means for meeting those needs and easing those challenges.

Reasons for Seeking to Serve on the Board, Commission, or Committee:

More than 20 % of the population in Virginia is over 60 years of age and this percentage is growing. The Jefferson Area Board of Aging meets critical needs of older adults by providing information, support, and services to the population of Central Virginia including Charlottesville and surrounding counties. I am a healthcare and aging professional with advanced education in nursing, gerontology (PhD in Nursing, Aging/Policy focus) and leadership/management (MBA). I have been active in the gerontology and nursing communities nationally as a leader in paid and voluntary roles during the last two decades. I recently transitioned out of full-time employment and wish to engage locally as a volunteer using the insights gained nationally to support my local community. It is my understanding that the Council advises the JABA Board of Directors on program and policy matters affecting the elderly and that it is mandated under the Older Americans Act. One of my employment roles, National Director of a technology training program for older workers, was authorized through Title V of the Older Americans Act. Also, as the John Heinz Senate Fellow in Aging Policy (2004-2005), I worked with U.S. Senator Jeff Bingaman, member of the U.S. Senate Finance Committee (with jurisdiction on tax-based entities such as Medicare, Medicaid, Social Security) and the Health, Education, Labor, and Pensions Committee (which authorizes the Older Americans Act). In my policy development and advisory role, I had to gain significant understanding about the Older Americans Act to be informed, informative, and effective. As importantly, at 65 years of age, as I waded through Medicare and Social Security decision making, and serve as a family caregiver, I have new, more personal perspectives on the challenges, complexities, and opportunities associated with aging. I mention family caregiving because my most recent personal challenge (2021) was serving as a family caregiver, side-by-side with my 90-year-old dad and hospice (for my recently deceased 87-year-old mother). This experience added a new dimension to my understanding of aging, hospice, and caring for and about the oldest old. I am seeking to serve on the Board because I have insight and understanding that may be valuable to JABA and Central Virginia. I also have the desire to volunteer and contribute to the community to ensure that it is one that continues to provide strong programs and services to older adults. And the timing to join the Council just seems right. Thank you for your consideration.

Places 29 North Community Advisory Committee

Board Details

The Advisory Committees will provide assistance, feedback and input to County staff and the Board of Supervisors on community and county efforts related to implementation and support of the adopted Master Plan, in accordance with established county procedures. Advisory Committee members will communicate with their constituencies to increase understanding of and support for successful implementation of the Master Plan. The membership is broad-based to incorporate a variety of perspectives and ideas and to provide citizens, business people, and representatives of community groups a chance to be engaged and to be heard in a constructive and meaningful way.

The Committees will be a catalyst for helping foster a sense of community and work towards effective and efficient Master Plan implementation. Committees are a venue to discuss and provide comments on program and policy questions and/or proposals. Community Advisory Committees are an important venue for discussion and Committees can provide feedback and indicate preferences related to development proposals, although Committees do not have a legislative role in the development process.

Responsibilities:

1. Serve as liaisons
2. Gather input from constituencies represented and bring these issues to the attention of staff and the Committee, and distribute information from the Committee back to constituents.
3. Stimulate creative thinking in examining implementation issues and identify ways of using community resources to meet implementation needs and challenges.
4. Provide advisory input, comments, and information to the Board of Supervisors on new and emerging policies, projects, and programs as requested.
5. Maintain a forward-looking agenda with respect to adopted Master Plans and policies of the Board of Supervisors. Committee meetings are not the appropriate venue to oppose adopted policy.
6. Commit to support and work to implement the adopted Master Plan.
7. Work with Staff to provide an annual report of activities to the Board of Supervisors in accordance with the Board of Supervisors' adopted Rules of Procedure for Boards and Commissions.
