

APPLICATION FOR SPECIAL EXCEPTION

Holly Hills is a proposed multi-family, townhouse and apartment community offering much-needed housing opportunities for Albemarle County citizens (the "Project"). The Project is proposed by Dominion Realty Partners LLC (the "Applicant") and Stony Point Development Group, LLC (the "Developer," and together with the Applicant, the "Joint Venture Partners").

The Joint Venture Partners have proposed a zoning map amendment that would rezone tax map parcels 04600-00-00-028A0, 04600-00-00-028B0, 04600-00-00-028I0, 04600-00-00-028J0, 04600-00-00-028K0, 04600-00-00-028E0, 04600-00-00-028F0, and 04600-00-00-028L0 (the "Property"), located in the Places29 Development Area, from R-1 Residential to Planned Residential Development ("PRD"), to allow for the development of Holly Hill Residences.

The Project will include multi-family structures that will include four stories. This same building type has become quite prevalent in the Urban ring. The same types of buildings were constructed in Brookhill, which allows 4 stories and 60' building heights in the Urban density residential areas. The same building type is proposed to be constructed within the Maplewood Development, which is a PRD allowing a maximum building height of 65 feet. It is also approved to be constructed in the Victorian Heights development, which is a by-right R-15 development. Furthermore, the approved Cville Rio Road apartments within the Urban Density Residential area of Places29 Masterplan allows for 4 story and 5 story buildings, and the proposed Woodbrook apartments within the Urban Density Residential area also proposes 4 story and 5 story buildings. Based on these examples provided, this project is consistent with the current projects planned and/or under construction with the Urban Density residential areas of the Places29 Masterplan and the proposed building heights are consistent with other planned and approved projects within the Places29 Masterplan.

The step back requirements set forth in Albemarle zoning Ordinance Section 4.19 would impose a minimum of 15 foot step back for each story above three stories. These multifamily buildings will be a significant distance from adjoining residential structures. The multifamily buildings will be at least 100 feet from the entrance corridor along Route 29 North. The Applicant respectfully requests that the step back requirements set forth in Ordinance Section 4.19 be waived to allow a zero step back for buildings within the Project that are up to four stories in height.
