**Narrative:**

*Describe the ways the proposed project supports Albemarle County's affordable housing need*

The proposed project, Woodbrook Apartments, proposes rezoning an approximately 3.623-acre property from R-6 to R-15 Residential to allow for a conventional R-15 development. If the property were rezoned as R-15 Residential and bonus factors utilized, up to 70 multifamily units could be developed on the property. Proffering 15% of the total units (70 units) as affordable housing would provide a total of 11 units as affordable housing, targeting households earning up to 80% of the Area Median Income (AMI). This project would align with the County's broader goal of increasing affordable housing options for residents at different income levels and will support the County's annual affordable housing goal for this year.

**Project Evaluation:**

- ☒ This project positively impacts affordable housing needs in Albemarle County  
☐ This project positively impacts workforce housing needs in Albemarle County  
☐ This project has no impact on affordable or workforce housing needs in Albemarle County  
☐ This project has a negative impact on the affordable or workforce housing stock in Albemarle County
