**Subject:** SP201400014 Faith Temple Church Addition - Special Use Permit.

Good morning Mr, Perez,

Faith Temple church members and pastor Wright are requesting an extension on our Special Use Permit SP201400014 for Faith Temple Church Addition, because of the challenges with the grave and sewage. We have decided to take the Turners to court for burying a body in the easement without the church knowledge, which is hindering the progression of the building process, Faith Temple purchased the property where the cemetery is located and the Turners along with other family members have a life time access to the cemetery. Faith Temple has offered to pay the expense to remove the body and put it in the cemetery, however they refused to cooperate with the church. Faith Temple was giving David Lee and Debra Turner time to think about it before we take action, because of the publicity that would surround the church. Faith Temple have no other choice now but to proceed. Please give us an extension for as long as you can until we get this settled. Faith Temple is forwarding the last two emails from our church lawyer, Lori Schweller, to Faith Temple church. With all the time spent working with the turners and sewage situation, we are asking you to grant us an extension through next April.

Thank you for your heart felt consideration.

Faith Temple Members  
Pastor Louise Wright
