Ethan Lohr

I am a resident of Albemarle county and I am proud to call Charlottesville my hometown. Living here since 1998, I have seen both the positive and negative impacts of business growth and economic development as many have "discovered" our gem here in Central Virginia. Through residential development and expansion, we have experienced an exciting few decades of boom. Charlottesville is working to adjust to these changes and it is my desire to be directly involved in this decision making process. By witnessing the evolution of our town from relative obsolescence to "#1 place to live in the U.S.", I provide a unique perspective that balances the old Albemarle with an openness to change. My hope is to live here for decades to come and I would like for my youth and energy to be utilized for the betterment of our community that we love dearly.

- Private sector – Family business, Lohr & Company, LLC that provides financial planning to small business, individuals and families. We serve roughly 600 families along route 29 from Albemarle to Madison county.

- Appointed by Board of Supervisors to serve on Development Process Review Committee (2006)
- Appointed by Board of Supervisors to serve on Broadband Task Force (2014-current)

Reasons for Wishing to Serve on this Committee:

I have 18 years of experience representing applicants pursuing rezoning and other land use approvals in Albemarle County. Over twenty of these rezoning applications have involved either exclusively residential units, or have included residential units as part of a larger mixed-use development. Thus, I have extensive experience working with the staff of the Community Development Department, Planning Commission, Board of Supervisors, members of the public, and various interest groups in working to find solutions to mitigate the impacts of residential development. I was active in County land use cases when there was no proffer policy, as the policy was evolving (both informally and formally) and I continue to be active in residential rezoning applications today. Having been involved for so long as the issues and challenges have evolved, I would welcome the opportunity to assist the County and the community in finding a solution or strategies to address the latest challenges involved with mitigating the impacts of residential development so we can achieve the goals of our Comprehensive Plan.

Other land use applications I have handled for clients include Special Use Permits, Comprehensive Plan Amendments, Variances, ARB approvals, Zoning Text Amendments, Wireless Telecommunications Facility permits, and a variety of waivers (critical slopes, variations, special exceptions, private road

waivers, etc.). The applications have involved a wide variety of applicants, including residential developers, mixed use developers, non-profit organizations (UVA Foundation, Martha Jefferson Hospital, Monticello, Churches, several private schools, other educational institutions, private educational foundations) and national and regional wireless telecommunications providers. I also have extensive experience handling similar cases in other jurisdictions within the central Virginia region, which enables me to bring experiences in the ways that other jurisdictions have addressed the proffer issue. In addition, in my role as the Chair of our law firm's Land Use Law practice group, leading a team of colleagues handling similar residential rezoning applications throughout the state, I am familiar with the variety of strategies that other jurisdictions beyond Central Virginia are employing to address the challenges of the new state law, and efforts to mitigate the impacts of residential development.

The variety of cases I have handled for a wide variety of clients over the past 18 years would enable me to bring a unique perspective to this work group. I am a consensus builder and desire to work to find a solution to the issue of residential impacts that can be acceptable to the County, the public, applicants, and various interest groups in our community, and that can support the important goals of the Comprehensive Plan. I am well-versed in the new state law on proffers and the challenge that the statute poses to the County, applicants and others in striking a balance on residential rezoning applications, and implementing policies that are consistent with the statute, while also furthering the goals of the Comprehensive Plan. I would like to bring my experience, knowledge, legal skills, and consensus-building personality and approach to the work group to strive to find a workable solution to this challenge.

I appreciate your consideration of my application and my interest in serving the community by participating in this work group.

Thank you.
