MASTER PLAN

C4

EXHIBIT: ROW RESERVATION ALONG ROUTE 250 FRONTAGE

This exhibit demonstrates the approximate ROW width needed to accommodate the construction and maintenance of a shared use path adjacent to the eastbound lane of Route 250 as well as an additional 6' for the potential construction of half of a future directional lane on Route 250.

- NOTES:**
1. The locations of site improvements such as buildings, travelways, parking areas, walkways, drainfields, and stormwater management facilities shown hereon are approximate in nature. Exact locations of site improvements within the buildable area will be determined at site plan. For the purposes of this plan, the buildable area is outside of environmentally sensitive features (floodplain, stream buffer, and critical slopes), setbacks, and buffer areas.
 2. "New Access Easement" to be provided if entrance serving TMP 79-24B is constructed through TMP 79-23F. Alternatively, a boundary line adjustment with TMP 79-23F may be pursued to permit the entrance on TMP 79-24B.
 3. "100' Tree Buffer Area to Remain" is to remain in a vegetated state. The clearing and removal of dead vegetation and the planting of new vegetation are permitted in this area.
 4. Screening trees and shrubs to be provided along Collina Farm parking area as necessary to screen improved parking area from neighboring properties.
 5. "ROW Reservation Area" to be dedicated to public use upon demand of the County for Route 250 roadway improvements.
 6. Maximum of 16 guest rooms permitted in guest cottages. Maximum of 21 guest rooms permitted on TMP 79-24B.
 7. Maximum building footprint for Event Building: 10,500 SF

NOTES:

1. The locations of site improvements such as buildings, travelways, parking areas, walkways, drainfields, and stormwater management facilities shown hereon are approximate in nature. Exact locations of site improvements within the buildable area will be determined at site plan. For the purposes of this plan, the buildable area is outside of environmentally sensitive features (floodplain, stream buffer, and critical slopes), setbacks, and buffer areas.
2. "Proposed New V.W. Public Access Easement" is to be dedicated to Albemarle County, upon demand of the County, for County greenway improvements, such as a trail and parking area. Limits of the V.W. Public Access Easement not to extend further northeast than the limits of the Zone A 100-year floodplain.
3. "Wooded Areas to Remain" permits the construction of public and private trail improvements and affiliated fencing. This area also permits parking and travelway improvements within the area, that overlays "New V.W. Public Access Easement" to serve the County Greenway System.
4. Maximum building footprint for Event Venue/Spa building: 5,000 SF
