SE-2025-00007 Request to Waive Mixture of Uses Requirement

- NMD districts required to have two (2) general use classifications (i.e., residential, commercial, industrial, institutional, parks or recreational facilities open to the public)
- Can be waived if different uses are already present within ¼ mile
- Non-residential uses would still be allowed under the proposed Code of Development

SE-2025-00008 Request to Reduce Minimum Required Amenities

- NMD Districts required to have certain percentage of gross acreage as amenity space as recommended by Comprehensive Plan
- Rio29 Small Area Plan recommends between 15-20% of site acreage devoted to amenities
- Application proposes 16% of site acreage as amenities

Positive Aspects

1. The request is consistent with the County's Growth Management Policy because it provides new housing within a designated development area.
2. The request is consistent with the form and site design standards of the Rio29 Small Area Plan.
3. The request provides a new 8' wide sidewalk along Rio Road W. which is a transportation improvement recommended by the Rio29 Small Area Plan.
4. The request provides land that could be dedicated to the County to allow construction of a vehicular and pedestrian connection to a public amenity space identified by the Rio29 Small Area Plan.

Concerns

1. Agnor Elementary school is projected to be over capacity in future academic years, and this project would add additional elementary students.

Planning Commission voted 5:0 to recommend approval of ZMA-2025-01 during the public hearing held on February 24, 2026.
