

Attachment D
Albemarle County Investment Report
Fourth Quarter Ended: June 30, 2022 (4th Quarter, FY 22)

Discussion

Albemarle County invests excess cash on behalf of its funds and those of its fiscal agencies. The 4th Quarter of FY 22 (not YTD) earnings were \$189,000 compared to \$88,000 in the 4th Quarter of FY 21. This increase is primarily due to the rising interest rates. Year-over-year the average quarterly Federal Funds rate increased from 0.07% to 0.77%. It is also due to higher average balances due to large inflows from the June FY 21 bond issuance, and the American Rescue Plan Act (ARPA). Excess cash remains liquid in Bank of America and the LGIP Local Government Investment Program, which is administered by the Commonwealth of Virginia. With rising interest rates, the County will begin to shift to investments with higher yields to increase earnings.

Current Portfolio Statistics (rounded to nearest 000's)		
Total Portfolio Value This Quarter (Including Liquidity)	\$	125,724,000
Total Portfolio Value This Quarter (Excluding Liquidity)	\$	-
Total Investments Made This Quarter	\$	-
Weighted Average Yield (Including Liquidity)		0.55%
Weighted Average Yield (Excluding Liquidity)		0.00%
Investment Portfolio Earnings (Including Liquidity)	\$	189,000
Investment Portfolio Earnings (Excluding Liquidity)	\$	-
