

Rachel Falkenstein, Senior Planner  
Planning Division  
Albemarle Co. Department of Community Development

Cc: Ann Mallek, White Hall District Rep., Albemarle Co. Board of Supervisors  
Dave Stoner, Crozet Community Advisory Council  
Dan Mahon, Albemarle Co. Outdoor Recreation Supervisor

The Crozet residents whose names are listed below urge the County Planning office to require that the Eastern Avenue Road extension between Westhall and Foothill Crossing include a culvert for the Crozet Connector Trail in addition to the culvert for the creek. The trail culvert should be of sufficient height for pedestrians and cyclists to pass through. The rationale for this request is to allow access along the greenway without requiring users to climb to the elevation of the proposed road. This popular trail is currently used by the public for running, biking, and walking by both adults and children. A disruption in the continuity of the trail experience would have a negative impact on the enjoyment and recreational benefit of this Crozet amenity, not to mention the safety aspect of requiring the public to cross what may prove to be a well-used road. There is also a concern that the use of a ramp to connect the current trail grade to the road grade above will not be universally accessible and will therefore exclude a significant group of potential users.

The Connector Trail is consistent with The Crozet Master Plan which promotes connected neighborhoods and walkability. It is also a community asset that is being promoted by developers in their advertising. Feedback from the public tells us there is significant support for our request.

Respectfully submitted,
