Just leaving 8 years on the Albemarle County BOS, 6 years on the RWSA BOD, RSWA BOD and about 6 years on ABBA BOD. Jefferson Area Veterinary Medical Association and AVMA, Ivy Creek Foundation, LWV. I am currently serving on the ACSA BOD.

Interests:

Natural resource protection. I recently completed the Rivanna Master Naturalist training. Hiking and outdoor activities.

Reasons for Seeking to Serve on the Board, Commission, or Committee:

I previously served 8 years on the BOS BOD and understand the importance of the National Park to the county residents. I live near the Park and hike there regularly. I am familiar with its benefits and county residents' concerns that can develop at the park entrances in Albemarle. I believe I could be a helpful contributor in dialogue with the National Park's leadership and convey information back to the BOS.

Blue Ridge Committee for Shenandoah Park Relations

Board Details

The purpose of the Blue Ridge Committee for Shenandoah Park Relations (Committee) is to provide a two-way conduit for information. Park management decisions today impact surrounding counties much as the original land acquisitions did in the 1930s. These include wildlife management practices, law enforcement, cross promotion of tourism, and potential expansion. Likewise, decisions on the County level can have significant impact on the Park, especially land use issues.

By establishing this Committee, the Counties can consider issues related to the Park in a comprehensive and informed manner and, when consensus is reached, communicate with one voice to Park management. Park management can have an ongoing and regular dialogue with its neighbors. Legislators can avail themselves of this opportunity to keep current on the issues which impact a large number of constituents and vast land area.

Current-chair of the Metropolitan Planning Organization Technical Committee Member of the Jaunt Board of Directors Current-member of Charlottesville-Albemarle Airport Commission (filling a short vacancy, anticipating re-appointment) Vice President of the Charlottesville Host Lions Club

Interests:

Aside from my professional efforts to make transportation for the City and region safer, more efficient, and more accessible, I'm also generally an enthusiast about all the great food, drink, and experiences this area has to offer.

Reasons for Seeking to Serve on the Board, Commission, or Committee:

In my professional capacity as the City's Transportation Planning Manager, I aim to serve the City and the region's interests and goals to developing a transportation network that makes strengthens as many different mode choices as possible to increase access and reliability in addressing travel needs. CHO is a major piece of that transportation, both as a conduit connecting our region to the broader world and as a destination that our residents need to have access to. My work typically focuses on other modes, but there are elements that overlap with existing planning work I am engaged in. Processes that are new to me and specific to air travel often have mirror processes that I am familiar with through my current and previous work with local, state, and federal funding requirements. I am currently serving on the airport commission to fill a short vacancy. I hope to continue to serve that commission and potentially be its representative to the airport authority, particularly given what I have learned in my limited time on the commission. CHO is looking at an ambitious capital planning process over the next few years. I believe my professional experience in transportation planning, drawing on years of experience as a consultant for large scale planning and design efforts, and my understanding and engagement with the City and the region through my current professional and personal roles will be useful to ensuring CHO's plans are well considered. At the previous commission meeting, it appeared that there may be some limited choices who may be able to serve as the commission's representative to the authority, due to the timing of how long other members have served and when those terms would end. My re-appointment to a first full-term as the City's representative to the commission could provide an opportunity to resolve that issue.

Pace leads UVA's strategic partnership with the CvilleBioHub, a self-organizing community network that fuels the growth of biotech companies and builds upon intellectual property and expertise emanating from UVA's substantial life science research portfolio.

Pace positions the University as a high-value contributor to public-private partnerships. She is currently leading the University's Affordable Housing Initiative, a hallmark of President Ryan's Good Neighbor program with a goal of supporting the development of 1,000-1,500 affordable housing units over the next ten years. Pace is assembling a robust team that includes the UVA Foundation, community partners, and nonprofit housing developers to create and execute a novel, community-driven plan that complements existing affordable housing endeavors.

Prior to coming to UVA, Pace worked in the energy industry and served as an engineering consultant for several privately held firms. She received a B.S. in petroleum engineering from Texas A&M University, a M.Ed. in higher education administration from the UVA School of Education and Human Development, and a M.B.A. from the Darden School of Business. Pace serves on a number of boards including the Virginia Economic Development Partnership (VEDP), the Central Virginia Partnership for Economic Development (chair), and the GO Virginia Region 9 Council.

Crozet Community Advisory Committee

Board Details

The Advisory Committees will provide assistance, feedback and input to County staff and the Board of Supervisors on community and county efforts related to implementation and support of the adopted Master Plan, in accordance with established county procedures. Advisory Committee members will communicate with their constituencies to increase understanding of and support for successful implementation of the Master Plan. The membership is broad-based to incorporate a variety of perspectives and ideas and to provide citizens, business people, and representatives of community groups a chance to be engaged and to be heard in a constructive and meaningful way.

The Committees will be a catalyst for helping foster a sense of community and work towards effective and efficient Master Plan implementation. Committees are a venue to discuss and provide comments on program and policy questions and/or proposals.
