Narrative:

Describe the ways the proposed project supports Albemarle County's affordable housing needs.

The applicant proposes to provide 15% of the units constructed as affordable housing for a maximum of 38 units affordable units. These units will be made available to households with incomes at 80% of area median income for a period of 10 years. Overall, Albemarle County needs to add approximately 7,507 affordable units to the housing stock by the year 2040 in order to meet current and future affordable housing needs. To meet this goal, the County will need to increase the affordable housing stock by 376 units per year for the next 20 years. The affordable units proposed in this project represents 10% of the affordable housing units needed this year.

Project Evaluation:

- This project positively impacts affordable housing needs in Albemarle County
- This project positively impacts workforce housing needs in Albemarle County
- This project has no impact on affordable or workforce housing needs in Albemarle County
- This project has a negative impact on the affordable or workforce housing stock in Albemarle County
