~~(2) Food waste.~~ The term “~~food waste~~” means all animal and vegetable solid wastes generated by food facilities, or from residences, that result from the storage, preparation, cooking, or handling of food.

~~(3) Garbage.~~ The term “~~garbage~~” means solid waste consisting of decomposable animal and vegetable waste materials resulting from the handling, preparation, cooking, and consumption of food, including waste materials from markets, storage facilities, handling and sale of produce, and other food products.

~~(4) Industrial solid waste.~~ The term “~~industrial solid waste~~” means solid waste originating from mechanized manufacturing facilities, factories, refineries, construction and demolition projects, and publicly operated treatment works, and/or solid wastes placed in debris boxes.

~~(5) Litter.~~ The term “~~litter~~” means solid waste discarded outside the established collection disposal

system.

~~(6) Multi-family dwelling. The term “multi-family dwelling” means a building or portion thereof containing more than two (2) dwelling units and not classified as a one family or two family dwelling nor as a townhouse, with not more than one family occupying each dwelling unit.~~

~~(7) Nonresidential units. The term “nonresidential units” means commercial buildings or structures, both retail and wholesale, including apartments with more than two dwelling units.~~

~~(8) Person. The term “person” means any natural person, corporation, partnership, association, firm, receiver, guardian, trustee, executor, administrator, fiduciary, or representative or group of individuals or entities of any kind.~~

~~(9) Processing. The term “processing” means the separation and marketing of recyclable materials.~~

~~(10) Recyclable materials. The term “recyclable materials” means materials which have been source separated by any person or materials separated from solid waste for the subsequent utilization in both cases as raw material to be manufactured into a new product other than fuel or energy.~~

~~(11) Recycling. The term “recycling” means the process of separating a given waste material from the waste stream and processing it so that it is used again as a raw material for a product, which may or may not be similar to the original product.~~

~~(12) Refuse. The term “refuse” means all solid and semiliquid wastes of a community, including garbage, trash, litter, rubbish, ashes, street cleanings, and industrial solid waste, but not including human or agricultural animal body wastes.~~

~~(13) Residential unit. The term “residential unit” means any housing unit within the eCounty, including single-family dwellings, two-family dwellings, townhouses, and mobile homes. It does not include multi-family dwellings. Occupants of such residential units are referred to as residents.~~

~~(14) Rubbish. The term “rubbish” means nondecomposable solid waste consisting of both combustible and noncombustible waste materials.~~

~~(15) Sanitary landfill. The term “sanitary landfill” means a disposal facility for solid waste so located, designed and operated that it does not pose a substantial present or potential hazard to human health or the environment.~~

~~(16) Solid waste. The term “solid waste” means garbage, refuse, sludges, and other discarded solid materials, including those from industrial, commercial, and agricultural operations, and from community activities.~~

~~(17) Source separation. The term “source separation” means the segregation of various specific materials from the waste stream at the point of generation.~~

~~(18) Transfer station. The term “transfer station” means a place or facility where waste materials are taken from small collection vehicles and placed in larger transportation units for transport to disposal areas, usually landfills, and where compaction or separation may be an incidental activity.~~

~~(19) Trash. The term “trash” means dry waste and usually does not include food waste and ashes but may include other organic materials, such as plant trimmings, or material considered worthless, unnecessary, or offensive that is usually thrown away.~~

~~Unightly materials. The term “unightly materials” means human or agricultural animal body wastes.~~

~~(20) Waste. The term “waste” means garbage, trash or other refuse that is discarded, useless, or unwanted.~~

~~(21) Waste collector. The term “waste collector” means all persons engaging in the business of picking up garbage, trash or refuse of any description by truck or other vehicle for the delivery to a sanitary landfill area or other place, for disposal of the same as may be permitted by law. A waste collector shall operate pursuant to a permit issued by the County.~~

Waste receptacle means watertight metal or plastic receptacles, commonly referred to as ‘garbage cans’ with a capacity of 32 gallons or less with a tight fitting lid.

~~(22) Waste stream. The term “waste stream” means the total flow of solid waste from residences, businesses, institutions, and manufacturing plants that must be recycled, burned, or disposed of in landfills; or any segment thereof, such as the "residential waste stream" or the "recyclable waste stream." The term “waste stream” also means the total waste produced by a community or society, as it moves from origin to disposal.~~
