CHAPTER 18 - ZONING
ARTICLE III - DISTRICT REGULATIONS
SECTION 10 - RURAL AREAS DISTRICT - RA
Sec. 10.1 Intent, where permitted.

- Limited service delivery to the rural areas; and
- Conservation of natural, scenic, and historic resources.

Residential development not related to bona fide agricultural/forestal use shall be encouraged to locate in the urban area, communities and villages as designated in the comprehensive plan where services and utilities are available and where such development will not conflict with the agricultural/forestal or other rural objective. Where development does occur, rural residents should expect to receive a lower level of service delivery than will be provided to residential developments in designated growth areas. In relation to residential development, agricultural/forestal activities shall be regulated only to the extent necessary to protect public health and safety.

In regard to agricultural preservation, this district is intended to preserve the county's active farms and best agricultural and forestal lands by providing lot areas designed to insure the continued availability of such lands for preferential land use tax assessment in order to enhance the economy, and maintain employment and lifestyle opportunities. In addition, the continuation and establishment of agriculture and agriculturally-related uses will be encouraged, and landowners will be encouraged to employ Virginia State Water Control Board best management practices.

(§ 20-10.1, 12-10-80, 11-8-89; § 18-10.1, Ord. 98-A(1), 8-5-98; Ord. 01-18(6) , 10-3-01)

It is intended that permitted development be restricted to land which is of marginal utility for agricultural/forestal purposes, provided that such development be carried out in a manner which is compatible with other purposes of this district. Roadside strip development is to be discouraged through the various design requirements contained herein.
