Subject: CASPCA Project

Ms. Echols,

I write to support the Charlottesville-Albemarle SPCA expansion and renovation project. My first contact with CASPCA was in 1998 when my family adopted two kittens, Maxwell and Schrödinger, who went on to live long and happy lives. In 1998, CASPCA was housed in a remodeled chicken coop near its current location. When the shelter began planning for its new building in 2004, I volunteered my assistance as a UVa computer person to help design the building's computer network. When I retired over five years ago, I began volunteering with cats at CASPCA. I've spent several days a week at the shelter ever since.

My time working with the CASPCA cats has been the most fulfilling of my life. I've personally observed the care and love that staff and volunteers devote to the animals in the shelter. These include cats like Lover Boy who was adopted within 10 minutes of becoming available for adoption:

Then there was Pumpkin, the haughty princess, whom we despaired would ever be adopted. After almost 1 1/2 years, she was:

I will never forget Cali who became so ill that the vets decided it was best to euthanize her after specialists called in to consult were unable to help her. She passed away lying on my lap:

Finally, there is Stenny. Here's what he looked like when I first met him when he arrived as a stray in August 2014:

He was frightened and withdrawn. He did not do well in a foster home. I worked with him for 17 months during which time he always hid but eventually allowed me to pet him. On a Friday in February 2016, as I petted him as he hid under a blanket, I realized he was purring. I took him home that day! Renamed Skimble, he's now a happy member of my trio of cats:

Thus, I've seen the wonderful things that CASPCA has done for the animals in our community. The proposed expansion will allow the cats in its care to live in a cage-free environment—something impossible in today's building. It will relocate and enlarge the clinic so that animals undergoing medical treatment can recover in quiet, stress-free areas. And it will enhance the welcoming atmosphere for community residents to meet and adopt wonderful companions.

Please support the CASPCA project.

Sincerely,

Steve Stearns

Subject: CASPCA rezoning request: I support

Dear Ms. Echols:

I respectfully request that you recommend that the Planning Commission approve the Charlottesville-Albemarle SPCA's request for rezoning.

The CASPCA is one of Albemarle County's jewels. It has a renown national reputation as a leader in shelter care and as a no-kill pioneer. Most rezoning requests focus on accommodating people for various non-life-threatening activities; the CASPCA's mission focuses solely on helping lost, abandoned, and discarded pets.

In addition to rescuing Albemarle County animals, it has expanded its mission to help low-income Albemarle County residents get essential vaccinations and medical care for their pets. Approving the rezoning petition will allow the CASPCA to help even more animals find safety, medical care, and ultimately new loving homes.

Rezoning the area is a win-win for Albemarle County's people and pets, and I strongly urge you to recommend to the Planning Commission that it approve the CASPCA's rezoning application.

Sincerely yours,

Catherine E. Wray

Eleven-year volunteer at CASPCA

Subject: CASPCA renovation

Dear Ms. Echols,

I am a student at the University of Virginia and a volunteer dog walker at the CASPCA. I have been volunteering at the CASPCA since the beginning of this semester, and it has truly been a privilege to meet so many amazing people and animals. I look forward to my shift every week, and I am passionate about the no-kill policy that lets the animals I have come to love have another chance at life.

I am writing to express my support of the proposed expansion and renovation of the CASPCA. The benefits of an expansion would be immeasurable, and a change is so necessary in order to continue providing homes and essential veterinary care to animals in need.

Thank you for your consideration!

Sincerely,

Torian Cook

Subject: CASPCA Rezoning Application

Dear Ms. Echols:

Please recommend that the Planning Commission approve the Charlottesville- Albemarle SPCA's application for rezoning.

The CASPCA is one of Albemarle County's indispensable organizations. It has a reputation that is the envy of its peers. Its mission, as you know, is to lodge, care for, and assist lost, abandoned, and discarded pets to find good homes. In addition to rescuing Albemarle animals, it has expanded its mission to help low-income Albemarle County residents obtain essential vaccinations and medical care for their pets. As a leader in its field, the CASPCA provides support to other humane organizations in under-served areas. Approving the rezoning petition will allow the CASPCA to help even more animals find safety, medical care, and ultimately new loving homes.

Please recommend to the Planning Commission that it approve the CASPCA's rezoning application.

Sincerely yours,

Timothy J. Snider
