Positive Aspects

1. The request is mostly consistent with the land use and density recommendations of the Southern & Western Neighborhoods Master Plan.
2. The request provides new transportation improvements consistent with the transportation recommendations of the Southern & Western Neighborhoods Master Plan, including transit stops, upgrades to an existing park & ride lot and a 10' wide multi-use path within the public right-of-way of U.S. Route 29.
3. The request provides 20% affordable housing consistent with the County's affordable housing policy.

Concerns

1. Student enrollment at Red Hill Elementary and Monticello High School are overcapacity and the development would add a projected 54 elementary and 48 high school students that would contribute to the current overcapacity enrollment.
