Re: SP202200004 Scottsville Substation Expansion Project Action Letter

Dear Mr. Fraser,

The Albemarle County Planning Commission, at its meeting on October 25, 2022, recommended approval of the abovenoted petition by a vote of 5:0 with the condition outlined in the staff report. Below are the recommended conditions:

Development of the use must be in general accord (as determined by the Director of Community Development, or the Director's designee) with the conceptual plan entitled "138 kV Proposed Station Expansion Landscape Plan," prepared by American Electric Power, and last revised 8-10-22. To be in general accord with the plan, development must reflect the location of the substation, related infrastructure, new screening vegetation, and vegetated areas to remain (shaded gray on the plan) as shown on the plan. Minor modifications to the plan that do not conflict with that essential element may be made to ensure compliance with the Zoning Ordinance.

Should you have any questions regarding the above-noted action, please contact me.

Sincerely, Scott Clark Natural Resources Manager
