Periodic Review of Agricultural and Forestal Districts

As established in the Code of Virginia, a district may continue indefinitely, but it must be reviewed by the County not more than every 10 years to determine whether the district should be continued. Before being considered by the Board of Supervisors, a district is reviewed by the County's Agricultural and Forestal District Advisory Committee and the Planning Commission. Both the Advisory Committee and the Planning Commission provide recommendations to the Board as to whether the district should be terminated, modified or continued.

Once it has received the recommendations of the Advisory Committee and the Planning Commission, the Board conducts a public hearing. After the public hearing, the Board may terminate, modify or continue the district. If the Board continues the district, it may impose conditions on the district different from those imposed on the district when it was created or last reviewed. Landowners within a district receive notice of this process, including notice of any proposed different conditions.

When a district is reviewed, land within the district may be withdrawn at the owner's discretion by filing a written notice with the Board at any time before the Board acts to continue, modify, or terminate the district.
