CHAPTER 18. ZONING

ARTICLE I. GENERAL PROVISIONS

3.1 DEFINITIONS

...

Manufactured home: A structure subject to federal regulation which is transportable in one or more sections; is eight (8) body feet or more in width and forty (40) body feet or more in length in the traveling mode, or is three hundred twenty (320) or more square feet when erected on site; is built on a permanent chassis; is designed to be used as a single-family dwelling, with or without a permanent foundation, when connected to the required utilities; and includes the plumbing, heating, air-conditioning, and electrical systems contained in the structure. The structure and use commonly known as a “mobile home” is a manufactured home. (Added 10-3-01)

...

Manufactured home lot: An area of land for the placement of a single manufactured home and for the exclusive use of its occupants.

Manufactured home park: One (1) or more contiguous parcels of land in which three (3) or more rental lots are provided for manufactured homes. (Amended 3- 5-86)

Manufactured home subdivision: A subdivision of land for the purpose of providing lots for sale for manufactured homes.

...

Travel trailer: A vehicular, portable structure built on a chassis and designed to be used for temporary occupancy for travel, recreational or vacation use; with the manufacturer's permanent identification "Travel Trailer" thereon; and when factory equipped for the road, being of any length provided its gross weight does not exceed four thousand five hundred (4,500) pounds, or being of any weight provided its overall length does not exceed twenty-nine (29) feet. For the purpose of this ordinance, a travel trailer shall not be deemed a manufactured home.

...

ARTICLE II. BASIC REGULATIONS

SECTION 5. SUPPLEMENTARY REGULATIONS

...

5.3 MANUFACTURED HOME PARKS

The Board of Supervisors may grant a special use permit for a manufactured home park in the Comprehensive Plan's designated growth areas.

5.3.1 MINIMUM SIZE MANUFACTURED HOME PARKS

A manufactured home park shall consist of five (5) or more contiguous acres.

5.3.2 MAXIMUM DENSITY

A manufactured home park shall conform to the maximum gross density requirements of the zoning district in which it is located.

5.3.3 MINIMUM LOT SIZES

Each manufactured home lot shall comply with the following area and width requirements:

- a. Manufactured home lots shall consist of at least four thousand five hundred (4,500) square feet, and shall have a width of at least forty-five (45) feet.
- b. Manufactured home lots served by either a central water or central sewerage system shall consist of at least forty thousand (40,000) square feet, and shall have a width of at least one hundred (100) feet.
- c. Manufactured home lots served by neither a central water supply nor a central sewerage system shall consist of at least sixty thousand (60,000) square feet and shall have a width of at least one hundred thirty (130) feet.

5.3.4 LOCATION OF MANUFACTURED HOMES

- a. Each manufactured home shall be located on a manufactured home lot. The lot shall provide space for outdoor living and storage areas and may provide space for a parking area.
- b. Each manufactured home lot shall front on an internal street.
- c. No manufactured home shall be located closer than fifty (50) feet from any service or recreational structure intended to be used by more than one (1) manufactured home.

- d. The minimum distance between manufactured homes shall be thirty (30) feet. The Albemarle County Fire Marshal may require additional space between manufactured homes if public water is not available or is inadequate for fire protection.

5.3.5 SETBACKS AND YARDS

- a. Manufactured homes and other structures shall be set back at least fifty (50) feet from the right-of-way of an existing public street.
- b. Manufactured homes and other structures shall be set back at least fifty (50) feet from the manufactured home park property line when it is adjacent to a residential or rural areas zoning district.
- c. Manufactured homes and other structures shall be set back at least fifteen (15) feet from the right-of-way of internal private streets, common walkways and common recreational or service areas. This distance may be increased to twenty-five (25) feet for manufactured homes or structures at roadway intersections and along internal public streets.
- d. Manufactured homes and other structures shall be set back at least six (6) feet from any manufactured home space lot line.

5.3.6 APPLICATION PLAN REQUIRED

An application plan shall be submitted as part of the application for a manufactured home park. The plan shall be reviewed by the site plan review committee, but shall be considered preliminary. Following approval of the special use permit, and prior to the issuance of a building permit or any clearing of the site, a final site plan shall be approved. The final site plan shall contain all the information required on the application plan in addition to all the information required in section 32.0.

The application plan shall contain the following information at a scale of one (1) inch equals forty (40) feet or larger:

- a. Location of the parcel by a vicinity map, and landmarks sufficient to identify the location of the property;
- b. An accurate boundary survey of the tract;
- c. Existing roads, easements and utilities; watercourses and their names; owners, zoning and present use of adjoining lots, and location of residential structures on adjoining lots;
- d. Location, type and size of ingress and egress to the manufactured home park;
- e. Existing and proposed topography accurately shown with a maximum contour interval of five (5) feet; areas shown with slopes of twenty-five (25) percent or greater;
- f. Flood plain limits;

- g. Proposed general road alignments and rights-of-way; general water, sewer and storm drainage lay-out; general landscape plan; common area with recreational facilities and walkways; service areas; common trash container locations; parking areas; a typical lot detail showing the manufactured home stand, outdoor living and storage areas, parking area, setbacks and utility connections; and any other information necessary to show that these requirements can be met.

5.3.7 IMPROVEMENTS REQUIRED--MANUFACTURED HOME LOTS

- a. *Utilities* Each manufactured home lot shall be provided with an individual connection to an approved sanitary sewage disposal system and an individual connection to an approved central water supply or other potable water supply.

Each manufactured home lot shall be provided with electrical service installed in accordance with the National Electrical Code.

- b. *Markers for manufactured home lots.* Each manufactured home lot shall be clearly defined on the ground by permanent markers. There shall be posted and maintained in a conspicuous place on each lot a number corresponding to the number of each lot as shown on the site plan.

- c. *Outdoor living and storage areas.* An outdoor living area shall be provided on each manufactured home lot. At least one hundred (100) square feet shall be hard surfaced.

Storage buildings not to exceed one hundred fifty (150) square feet shall be permitted in a designated area on each lot. Additional storage facilities may be provided in common areas.

- d. *Additions to manufactured homes.* Additions to manufactured homes are permitted, subject to the following conditions:

1. Albemarle County Building Official approval;
2. Applicable setbacks are met;
3. Total roof area lot coverage shall not exceed forty (40) percent of the manufactured home lot.

- e. *Installation of manufactured homes.* Installation of manufactured homes shall comply with the requirements of the Building Code.

Skirting shall be provided around the manufactured home from ground level to the base of the manufactured home within sixty (60) days of the issuance of a certificate of occupancy.

5.3.8 IMPROVEMENTS REQUIRED – MANUFACTURED HOME PARK

- a. *Off-street parking.* Off-street parking for manufactured homes, recreational uses and service areas shall be provided in accordance with section 4.12 of this ordinance. Parking for manufactured homes may be provided on individual lots, or in convenient bays, in accordance with section 4.12.16. Additional parking area for recreational vehicles shall be provided in a common area at a rate of one (1) space per ten (10) units.
- b. *Internal Street.* A minimum right-of-way width of forty (40) feet shall be established on internal private streets for the purpose of measuring setbacks. The right-of-way shall be maintained clear of all obstructions.

Internal private streets shall be constructed to the following minimum standards:

1. Minimum typical section for access, entrance, or other connecting streets that do not abut manufactured home sites and for streets that do abut manufactured home sites where the lot frontage (measured at the manufactured home setback line) is an average of eighty-five (85) feet or greater.

2. Minimum typical section for all park streets that abut manufactured home sites where the lot frontage (measured at the manufactured home setback line) is an average of less than eighty-five (85) feet.

3. General Design Notes:

- (a) Streets shall have a minimum width of twenty (20) feet, with no on-street parking. Increase street width to twenty-four (24) feet for streets that serve over fifty (50) manufactured home sites, with no on-street parking. Streets with on-street parking shall have a minimum clear width of twenty-two (22) feet, excluding parking space requirements.
- (b) Pavement shall be prime and double seal bituminous surface treatment. Base shall be six inches of 21A or 21B aggregate base.
- (c) Maximum longitudinal street grade is ten (10) percent.
- (d) Minimum vertical stopping sight distance is one hundred (100) feet.
- (e) Minimum horizontal centerline curve radius is two hundred and fifty (250) feet.
- (f) Cul-de-sacs shall have a minimum radius of forty-five (45) feet measured to the edge of pavement.
- (g) Minimum radius of edge of pavement at intersections is twenty-five (25) feet.
- (h) Roadside ditches shall be designed to contain the ten-year storm below the shoulder using Mannings "n" of 0.06 if lined with grass, or 0.015 if lined with concrete. Ditches may be grassed if the flow from the two-year storm does not exceed three feet per second for a Mannings "n" of 0.03. If the three foot per second velocity is exceeded, the ditches shall be paved with class A-3 concrete, four inches thick, to the depth of the ten-year storm. When the depth of the required roadside ditch (measured from the shoulder to the invert) exceeds 2.5 feet, the flow shall be piped in a storm sewer system.
- (i) Driveway entrance culverts and culverts crossing streets shall be designed to contain the ten-year storm below the road shoulder using the appropriate Virginia Department of Transportation (VDOT) nomographs. When paved ditches are smoothly transitioned into the culverts, the culverts may be sized using Mannings formular. All culverts shall be concrete. Erosion control protection (VDOT standard EC-1) shall be placed at culverts when the outlet velocity exceeds five feet per second. Driveway culverts shall be a minimum of 12 feet long.
- (j) Driveways shall be paved the same as streets to the right-of-way line. Aggregate base may be four inches thick.
- (k) Curb drop inlets shall be placed along the tangent portions of the street or at the points of curve at intersections. Curb drop inlets shall be sized and located to prevent overtopping of the curb during the ten-year storm. Curb drop inlets shall be VDOT DI-3A, 3B, or 3C with a type "A" nose.
- (l) Storm sewers shall be designed in accordance with VDOT criteria.

(m) All construction and materials shall be in accordance with current VDOT road and bridge standards and specifications.

c. *Recreation requirements.* See section 4.16.

d. *Pedestrian access.* The requirements of section 32.7.2.3 shall be met. (Amended 10-3-01)

(§ 5.3.8.4, 12-10-80; Ord. 01-18(6), 10-3-01)

e. *Service areas and accessory uses.* Centrally located service buildings may provide common laundry facilities, office space for management and accessory uses as are customarily incidental to the operation and maintenance of a manufactured home park. Consolidation of the service building and indoor recreational facilities is permitted. Other uses may be established in accordance with the regulations of the district in which the park is located.

f. *Lighting.* All proposed exterior lighting shall be shown. Lighting shall be directed away from manufactured homes, adjacent properties and roadways in a manner approved by the Zoning Administrator.

g. *Landscaping and screening.* The requirements of section 32.7.9 shall be met. In addition, screening may be required in accordance with section 32.7.9.7 around the entire perimeter of the park, or part thereof, except where adequate vegetation already exists and a conservation plan has been submitted in accordance with section 32.7.9.4(b). (Amended 10-3-01)

5.4.4 (Repealed 3-5-86)

5.4.5 (Repealed 3-5-86)

5.5 MANUFACTURED HOME SUBDIVISIONS

5.5.1 PURPOSE

This provision is designed primarily to benefit those who wish to acquire ownership or equity in a lot and occupy the premises themselves, but who may find it undesirable or difficult to construct a conventional single-family dwelling. Conventional single-family dwellings may be built in manufactured home subdivisions and owners of manufactured homes in these subdivisions may convert their residences from manufactured homes to single-family dwellings.

5.5.2 APPLICATION

These regulations shall supplement and be in addition to the regulations of the district in which any such subdivision shall be located, except that no regulation which is by its nature inapplicable to manufactured homes shall apply to manufactured homes.

5.5.3 SPECIAL USE PERMIT REQUIRED

A manufactured home subdivision may be established by the Board of Supervisors by special use permit.

5.5.4 MINIMUM SIZE OF MANUFACTURED HOME SUBDIVISION

A manufactured home subdivision shall consist of ten (10) lots or more.

5.5.5 SUBDIVISION CONTROL

All manufactured home subdivisions shall conform to the requirements of County Code Chapters 14 and 17.

5.5.6 APPLICATION PLAN REQUIRED

A preliminary subdivision plat shall be submitted as part of the application for a manufactured home subdivision, and shall be reviewed by the site review committee. Following approval of the special use permit, and prior to the issuance of a building permit or any clearing of the site, a final plat shall be approved. (Added 3-5-86)

5.6 MANUFACTURED HOMES ON INDIVIDUAL LOTS (Amended 3-5-86; 11-11-92)

Albemarle County, in an effort to provide for affordable housing for all residents, permits manufactured homes to be situated on individual lots in certain districts. -The following regulations shall apply:

- a. The manufactured home shall be located on a foundation approved pursuant to the Building Code;
- b. The manufactured home shall only be used as a primary residence.

5.7 TEMPORARY MANUFACTURED HOME PERMIT

The Zoning Administrator may issue a temporary manufactured home permit if the manufactured home is used only as interim housing during construction of a permanent dwelling. The manufactured home shall be removed within thirty (30) days of issuance of a certificate of occupancy for the permanent dwelling. Temporary manufactured home permits shall be subject to the following conditions:

- a. Albemarle County Building Official approval;
- b. The applicant and/or owner of the subject property shall certify the intended use of the manufactured home;
- c. Minimum frontage setback and side and rear yard setbacks shall be determined by the Zoning Administrator;
- d. Provision of potable water supply and sewerage facilities to the reasonable satisfaction of the Virginia Department of Health.

5.7.1 EXPIRATION, RENEWAL

Any permit issued pursuant to section 5.7 shall expire eighteen (18) months after the date of issuance unless construction shall have commenced and is thereafter prosecuted in good faith. The Zoning Administrator may revoke any such permit after ten (10) days written notice, at any time upon a finding that construction activities have been suspended for an unreasonable time or in bad faith. In any event, any such permit shall expire three (3) years from the date of issuance; provided, however, that the Zoning Administrator may, for good cause shown, extend the time of such expiration for not more than two (2) successive periods of one (1) year each. (Amended 6-3-81)

5.8 TEMPORARY INDUSTRIALIZED BUILDING

A temporary industrialized building may be authorized by a zoning clearance issued by the Zoning Administrator provided the industrialized building is necessary to provide additional space for employees, students or other people as an activity area, and further provided that the building is not primarily used for storage. A temporary industrialized building also shall be subject to the following: (Amended 12-5-90, 8-9-17)

- a. *Site plan.* Before a building permit is issued for the temporary industrial building, the owner shall obtain approval of a site plan; (Amended 12-5-90)
- b. *Statement from site owner.* Before the Zoning Administrator issues a zoning clearance for the temporary industrialized building the applicant and/or owner of the site shall submit a written statement to the Zoning Administrator explaining the purpose for the temporary industrialized building, the activities to be conducted therein, and the duration that the temporary industrialized building will be located on site;
- c. *Location.* A temporary industrialized building shall be located on the same site as the existing primary use for which additional space is needed;

- d. *Conditions.* In granting a zoning clearance for a temporary industrialized building, the Zoning Administrator may impose reasonable conditions to address any impacts arising therefrom, including but not limited to, conditions limiting the duration that the temporary industrialized building will be located on the site and requiring landscaping to screen the building from abutting properties and public rights-of-way.
- e. *Skirting.* Skirting shall be provided from the ground level to the base of the temporary industrialized building within sixty (60) days after the certificate of occupancy is issued.
- f. *Duration and extension.* No temporary industrialized building shall remain on the site for more than three (3) years after obtaining the zoning clearance; provided that the Zoning Administrator may extend the duration beyond the three (3) years for up to two (2) successive periods of one (1) year each upon the owner demonstrating to the Zoning Administrator's satisfaction either: (i) expansion of the primary structure has commenced and its completion is being diligently pursued; or (ii) other good cause. If the permanent structure serving the primary use is thereafter expanded at any time while the temporary industrialized building is on the site, the temporary industrialized building shall be removed within thirty (30) days of the issuance of a certificate of occupancy for the permanent structure.
- g. *Revocation of authorization.* The Zoning Administrator may revoke the zoning clearance for the temporary industrialized building after ten (10) days written notice, at any time upon a finding that construction activities have been suspended for an unreasonable time or in bad faith.
