

Growth & Change in Our Community

Joint Convening of the Albemarle County
Board of Supervisors
School Board
Planning Commission

February 13, 2018

Demographics and Growth

Department of Community Development

Roderick Burton, Senior Systems Analyst

Elaine Echols, Chief of Planning – Long Range

David Fox – Neighborhood Planner

Albemarle County: Growth and Change

- Changing demographics of our County
- Projected County population
- Population of the individual development areas
- Estimated population at buildout by development area
- Location and timing of new development

Albemarle County is changing demographically

- Steady population increase
- Growing racial diversity in the population
- An aging population

Albemarle County: Population

Historical Perspective

	Albemarle County		City of Charlottesville		Virginia	
Year	Population	Annual Growth	Population	Annual Growth	Population	Annual Growth
1960	30,969		26,427		3,966,949	
1970	37,780	2.0%	33,880	2.5%	4,651,448	1.6%
1980	55,783	4.0%	39,916	1.7%	5,346,818	1.4%
1990	68,172	2.0%	40,475	0.1%	6,187,359	1.5%
2000	84,186	2.1%	40,099	-0.1%	7,078,515	1.4%
2010	99,010	1.6%	43,435	0.8%	8,001,024	1.2%

Average Annual Growth Rate

Albemarle County:

What we know about how it is changing demographically

- Steady population increase
 - A continuation of current trends will cause population increase to stagnate
- Growing racial diversity in the population
 - But remains lower than state and national levels
- An aging population
 - From a steady influx of retirees, but a low amount of entry level workforce

Planning for Growth

Do we have enough land in the Development Areas for anticipated growth?

Rural Area

- thriving farms and forests
- traditional crossroads communities
- protected scenic areas, historic sites, and preserved natural resources
- lower level of service delivery

Population: 40,687 (40% of population in 95% of land area)

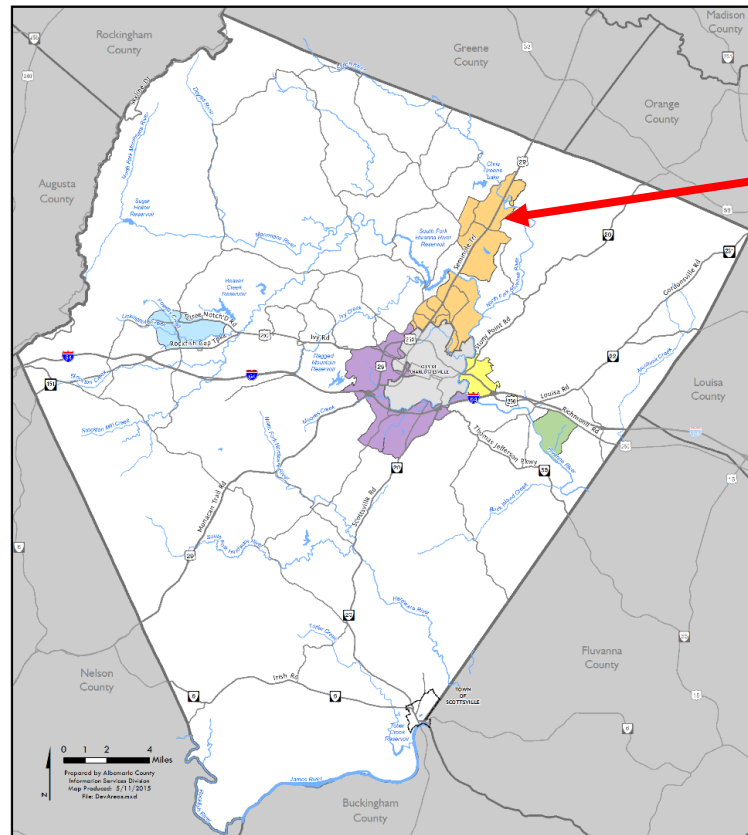

Development Areas – Where growth is expected

- variety of housing types
- mixed-use areas
- thriving business and industry
- multimodal transportation networks
- density with good design
- high level of service delivery

Population: 64,102 (60% of population in 5% of land area)

Observations

- Community is steadily growing
- The population doesn't have as many people in the 35 – 54 age range as in past years
- Racially, we are becoming more diverse
- We know where growth has occurred in the past – the most populous areas are north of the City
- We can tell where development is taking place now
- Based on rezonings and applications of the past 10 – 12 years, have indications of where growth will take place in the future
