	Sanitary surveys:	David Crabtree	18-Sep-2018
	The local health department is responsible for assuring that surveys are conducted of properties which include soil evaluations and identification of potential sources of contamination; local health department staff may perform such inspections as required. The surveys are conducted in order to determine site suitability for onsite sewage systems, alternative discharging systems and wells.		
4	Code Link-32.1-11 Is this the correct code section. Does not seem to fit description.		
	This is part of the onsite sewage system and private well sections, and is duplicative.
