

ALBEMARLE COUNTY'S 2019 POSITION AND POLICY STATEMENTS CONT.

Health and Human Services

Administrative Appeals and Findings: Support legislation to amend Virginia Code § 63.2-1526(A) to require that an administrative finding be controlled by a court's civil or criminal finding if those matters involve the same conduct and the same victim and arise under the same operative facts. Support legislation to amend Virginia Code § 63.2-1526(C) to stay child protective services administrative appeals while abuse and neglect proceedings, findings, or both, are pending in circuit court.

Abuse and Neglect: Support legislation to expand the definition of "abuse and neglect" to explicitly include parents who use Schedule I/II controlled substances or are habitually intoxicated while being responsible for children.

Child Care for Low Income Working Families: Support legislation to provide additional funds to localities to assist low-income working families with childcare costs. Funding helps working-class parents pay for supervised day care facilities and supports efforts for families to become self-sufficient.

Children's Services Act (CSA): Support: (1) a locality's ability to use state funds to pay for mandated services provided directly by the locality, specifically for private day placements, where the same services could be offered in schools; (2) maintaining cost shares on a sum sufficient basis by both the state and localities; (3) enhanced state funding for local CSA administrative costs; (4) a cap on local expenditures in order to combat higher costs for serving mandated children; and (5) the state being proactive in making residential facilities and service providers available, especially in rural areas. Oppose changing the funding mechanism to a per-pupil basis of state funding, which would shift the sum sufficient portion fully to localities.

Local Department of Social Services (LDSS): Support increased state funding for LDSS to match all available federal funding to assist LDSS staffing needs in order to meet state mandated services and workloads.

Targeted Grants: Support improving the State's targeting of grants to businesses that pay higher wages by increasing the minimum wage requirements for eligible grant applicants.

Local Government Administration and Finance

Body Worn Cameras: Support legislation to amend Virginia Code § 2.2-3706 (which is part of the Virginia Freedom of Information Act (FOIA)) to clarify that local law enforcement agencies have the authority to withhold from mandatory disclosure under FOIA those records, including body worn cameras and dashcam video, that contain identifying information of a personal, medical, or financial nature where the release of the information could jeopardize the safety or privacy of any person.

Community College Capital Costs: Support legislation for the state to fund 100% of public funding required for community college capital costs. Currently, localities are required to fund a portion of operating and capital costs.

Composite Index: Support legislation to amend the Composite Index Funding Formula by re-defining the local true value of real property component of the formula to include the land use taxation value of real property rather than the fair market assessed value for those properties.

Drones: Support legislation enabling localities to have authority to regulate the use of unmanned aerial vehicles in their jurisdictions not preempted by federal law.

Drug Court Funding: Request full funding for the Drug Court Program, which provides effective treatment and intensive supervision to drug offenders through the Circuit Courts of several Virginia localities.

June Primary Elections: Support legislation to move the annual date for June primary elections in the Commonwealth from the second Tuesday in June to the third Tuesday in June to avoid conflicts between local election administration and local school systems, where schools serve as voting precinct polling places.

Regional Library Funding: Request full funding of State Aid to the Jefferson Madison Regional Library and other regional libraries in the State system.

Public Defender Funding: Request the state to adequately fund compensation for public defenders in Commonwealth jurisdictions.

Seat Belts: Support legislation that would make the failure to use a seat belt a primary offense.

State Mandates Funding: Request full funding for state mandates in all areas of local government including, but not limited to, the Standards of Quality (SOQs) and other mandates imposed on local school divisions, positions approved by the Compensation Board, costs related to jails and juvenile detention centers and human services positions.

Virginia Retirement System: Support restoration of funds to the Virginia Retirement System to maintain the long-term solvency of the plan without further devolving the funding responsibility to localities.

ALBEMARLE COUNTY'S 2020 LEGISLATIVE PRIORITIES

VIRGINIA GENERAL ASSEMBLY 2020

Each year the Albemarle County Board of Supervisors considers and approves its legislative priorities and submits them to the Thomas Jefferson Planning District Commission (TJPD), the Virginia Association of Counties and the Virginia Municipal League.

MISSION

To enhance the well-being and quality of life for all citizens through the provision of the highest level of public service consistent with the prudent use of public funds.

VISION STATEMENT

Albemarle County envisions a community with...

- Abundant natural, historic, and scenic resources
- Healthy ecosystems
- Active and vibrant development areas
- A physical environment that supports healthy lifestyles
- A thriving economy
- Exceptional educational opportunity for present and future generations

CORE VALUES

INTEGRITY

We value our customers and co-workers by always providing honest and fair treatment.

LEARNING

We encourage and support lifelong learning and personal and professional growth.

INNOVATION

We embrace creativity and positive change.

STEWARDSHIP

We honor our role as stewards of the public trust by managing our natural, human and financial resources respectfully and responsibly.

BOARD OF SUPERVISORS

Ned Gallaway, Chair, Rio District
Rick Randolph, Vice-Chair, Scottsville District
Norman Dill, Rivanna District
Ann Mallek, White Hall District
Diantha McKeel, Jack Jouett District
Liz Palmer, Samuel Miller District

EXECUTIVE LEADERSHIP

Jeff Richardson, County Executive
Doug Walker, Deputy County Executive
Trevor Henry, Assistant County Executive

ALBEMARLE COUNTY'S 2020 LEGISLATIVE PRIORITIES

In-kind Resources for Volunteer Firefighting and Emergency Service Providers

Priority: Initiate or support legislation to amend Virginia Code § 15.2-953(B) to enable localities to provide in-kind resources to volunteer firefighting and emergency service providers.

Rationale: The authority, if granted, would allow the County to better support local volunteer firefighting and emergency service organizations by providing in-kind resources such as project management and budget support.

Impact Fees

Priority: Support legislation that would repeal current Virginia Code § 15.2-2328, which limits impact fees to only those localities that had established an urban transportation service district and adopted an impact fee ordinance on or before December 1, 2008, and enable impact fees to be available to all localities. Support legislation that would grant localities the authority to develop impact fee programs to meet the capital needs attributable to new development as specified in Virginia Code § 15.2-2329.

Rationale: The authority, if granted, would allow the County to more equitably pay for the public facilities required by new development and incentivize development consistent with the Comprehensive Plan.

Equal Taxing Authority for Counties

Priority: Support legislation granting urban or high-growth counties taxing powers to impose a city-level transient occupancy tax, or initiate legislation that would enable the County to impose a city-level transient occupancy tax for a specific identified purpose.

Rationale: The authority, if granted, would allow the County to levy its transient occupancy tax at a rate commensurate with the service it provides, and reduce the reliance on the real property tax as a revenue source.

Carrying Specified Loaded Weapons in Public Areas

Priority: Initiate legislation to amend Virginia Code § 18.2-287.4 to add Albemarle County to the list of localities in which carrying specified loaded weapons in public areas is prohibited.

Rationale: The authority, if granted, would improve public safety in public areas where many people may be present, consistent with the authority granted to other Cities and Counties throughout Virginia.

Monuments and Memorials

Priority: Initiate legislation to amend Virginia Code § 15.2-1812 and any other sections determined to be necessary to grant local authority over the retention, relocation, removal, and contextualization of war memorials and monuments on locality property, and to make the authority to contextualize declaratory of existing law.

Rationale: The authority, if granted, would allow the County to control its monuments and memorials for war veterans in a manner consistent with the desire of its citizens.

Increasing the Minimum Tree Canopy to be Preserved During Development

Priority: Initiate or support legislation to amend Virginia Code § 15.2-961 to allow localities greater flexibility in the reforestation, preservation, and management of urban forests, and to provide an additional tool for stormwater management compliance.

Rationale: The authority, if granted, would allow the County to preserve more of the existing tree canopy on sites being developed. Retaining more of the tree canopy provides broad environmental benefits and helps the County fulfill its Development Area goals.

ALBEMARLE COUNTY'S 2019 POSITION AND POLICY STATEMENTS

Growth Management, Land use, and Transportation

Biosolids: Support legislation enabling localities, as part of their zoning ordinances, to designate and/or reasonably restrict the land application of biosolids to specific areas within the locality based on criteria related to the public safety and welfare of its citizens and the environment. In addition, support legislation regarding the land application of biosolids that protect the environment, public health and safety.

Broadband: Support legislation by the Commonwealth and the Federal Government that would assist localities and provide financial incentives to localities and their communities in deploying universal, affordable access to broadband technology, particularly in unserved and underserved areas, while at the same time preserving local land use authority for siting telecommunications infrastructure. This includes supporting continued and increased funding for the Virginia Telecommunications Initiative (VATI). In addition, support legislation that would: (1) ensure that coverage maps used to determine underserved and unserved areas or census blocks are accurate; and (2) amend the definition of "coverage" to mean that service actually exists in a census block or area and the service availability within that census block or area is substantial.

Environmental: Support legislation prohibiting businesses from using disposable plastic bags and straws and to require bottle deposits, or enable localities to do so, with exceptions applicable to straws for hospitals and other care facilities.

Open-space Easements: Support legislation that augments local efforts in natural resource protection through: (1) continued funding of the Virginia Land Conservation Foundation (VLCF) for locally established and funded Purchase of Development Rights programs (e.g., the ACE Program in Albemarle County); (2) continued provision of matching funds to localities for their Purchase of Development Rights programs through the Office of Farmland Preservation; (3) retaining provisions in transient occupancy tax legislation so that funds can continue to be used to protect open-space and resources of historical, cultural, ecological, and scenic value that attract tourism; and (4) increased incentives for citizens to create conservation and open-space easements.

Solar Energy: Support legislation that would eliminate or relax the cap on net energy metered electricity that utilities are required to purchase.

Proffers: Support changes to the current proffer system and, in particular, the proffer legislation approved in 2016, which limits the scope of impacts that may be addressed by proffers and establishes specific criteria for when a proffer is deemed to be unreasonable. Support changes to provide more balanced and practical standards for determining whether a proffer is reasonable and restore a climate where localities and applicants can openly discuss rezoning applications and possible proffers.

Scenic Protection and Tourist Enhancement: Support enabling legislation for Albemarle County to provide for a scenic protection and tourist enhancement overlay district. The legislation would provide a method to ensure full consideration of visual resources and scenic areas when the County or state make land use decisions in designated areas.

Stormwater Management: Oppose any legislation that would impact the resource and funding needs of the Virginia Department of Environmental Quality (DEQ) to fully administer, enforce, and maintain the state Stormwater Management Act, the Erosion and Sediment Control Law, and the Chesapeake Bay Preservation Act.

Transit Funding: Support the state identifying and providing new funding sources for transit capital investments. Capital project revenue bonds, approved in 2007 to provide \$600 million over 10 years for transit capital, are expiring. Failure by the state to provide replacement funding will jeopardize safe and reliable transit service and will result in the loss of federal funds if they are unable to be matched, which would mean a double hit for transit agencies funded primarily at the local/regional level.

Transportation Funding: Support legislation to: (1) establish a new dedicated funding source for a Charlottesville-Albemarle Regional Transit Authority; (2) establish stable and consistent state revenues for Virginia's long-term transportation infrastructure needs; (3) direct funding efforts to expand transportation choices and engage in multimodal transportation planning; and (4) fund maintenance of rural road systems. Oppose any legislation or regulations that would require the transfer of responsibility to counties for constructing, maintaining, or operating new and existing secondary roads.

Water Quality and Resources: Support state funding for the following: (1) agriculture best management practices; (2) stormwater grant initiatives; and (3) wastewater treatment plant upgrades.
