REVIEWED BY: Thomas C. Foley

BACKGROUND: A request has been submitted by Verizon Wireless associated with its building permit application to add a fifth antenna array to the existing 148 foot tall lattice tower at 1756 Airport Road. The applicant requests a special exception to waive the requirements of County Code § 18-5.1.40(a)(4)(f) for a tree survey and of County Code § 18-5.1.40(b)(3) for a tree conservation plan, to modify the requirements of County Code § 18-5.1.40(b)(2)(a), which limits the number of arrays to three, to allow a fifth array, and to modify the requirements of County Code § 18-5.1.40(b)(2)(c) to allow antennas to project beyond 18 inches from the tower structure, as measured from the back of the antenna.

STRATEGIC PLAN: Critical Infrastructure: Prioritize, plan and invest in critical infrastructure that responds to past and future changes and improves the capacity to serve community needs.

DISCUSSION: County Code §§ 18-5 and 18-33.5 allow special exceptions to waive or modify the requirements of County Code § 18-5.1.40 for personal wireless service facilities. A detailed analysis is

provided in the attached Staff Report (Attachment A).

BUDGET IMPACT: There is no budget impact related to the approval of this special exception.

RECOMMENDATION:

Staff recommends that the Board adopt the attached Resolution (Attachment D) approving the special exception subject to the conditions attached thereto.
