REVIEWED BY: Jeffrey B. Richardson

BACKGROUND: In November 2019, the Charlottesville City Council, Albemarle County Board of Supervisors and the University of Virginia (UVA) established the Land Use and Environmental Planning Committee (LUEPC). LUEPC is intended to be a vehicle to collaborate and coordinate land use and development plans and projects and to consider environmental, sustainability, and infrastructure issues facing the community.

STRATEGIC PLAN: Infrastructure & Placemaking - Invest in infrastructure and amenities that create connection, opportunity, and well-being.

DISCUSSION: LUEPC met both virtually and in-person for the second half of 2023. The committee has continued concentrating on project discussion and coordination. The agendas for the monthly meeting are developed around themes - either geographical areas or specific topics. LUEPC's Semi-Annual Report for the second half of 2023 (Attachment A) has been compiled and includes the highlights of the meetings.

BUDGET IMPACT: There is no budget impact.

RECOMMENDATION:

Staff recommends the Board receive this semi-annual report.
